

TOUCH BOX

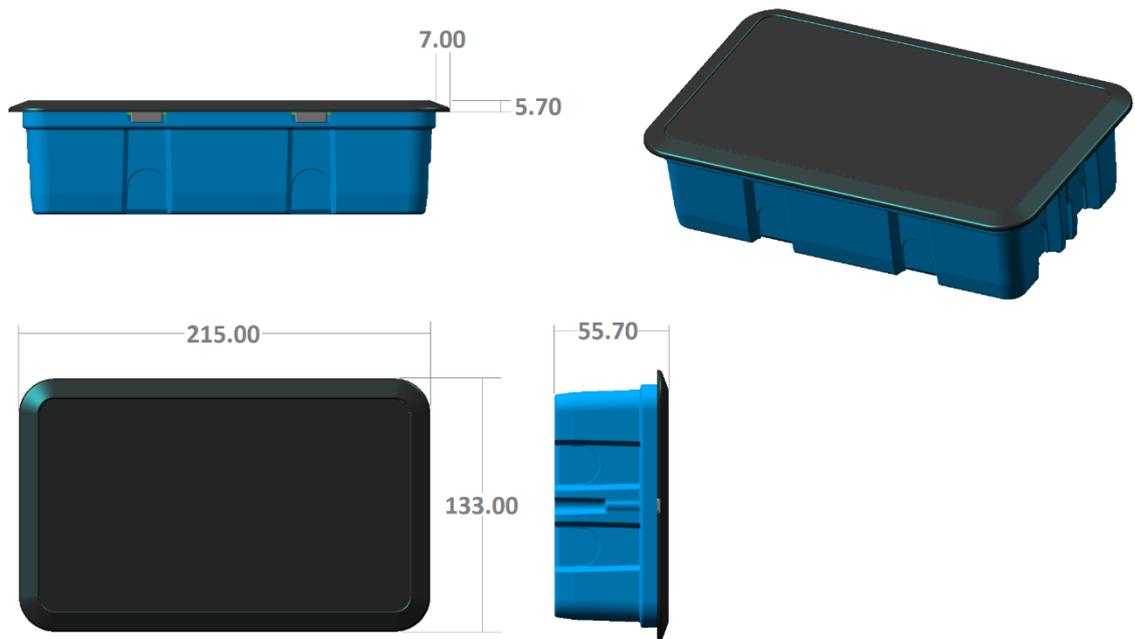

Wall-mounted box for Raspberry-Pi Touch Display

This is the wall-mounted box which has been specifically designed and manufactured for the 7" touchscreen monitor for Raspberry Pi: "Raspberry-Pi Touch Display".

There are 4 different colors for the external frame: glossy black, glossy white, matte black and matte white.

You can mount any Raspberry Pi board on the back side of the Touch screen or any other electronics that fits in the box. The box that goes into the wall is totally symmetrical in order to simplify the installation.

The external frame has just the right size so that any imperfection on the wall cut can be hidden behind it for a very clean and elegant look.
